Cordoba - Argentina

BACKEND SOFTWARE DEVELOPER

Skilled Python developer and team player with diverse experience using Python tools for client-server environments Fluid understanding of many programming languages including Ruby, JavaScript, CSS, and HTML. Self-taught person and fast learner with exceptional analytical and critical thinking skills.

STRENGTHS AND EXPERTISE

Amazon Web Services
- Lambda
- Simple Storage Service
- Elastic Container Service
- Dynamo DB

Personal Traits
- Fast Learner
- Adaptability
- Team Player
- Passion for Quality

Python
- Object Oriented Programming
- Django Web Development
- API Development
- CI/CD

PROFESSIONAL EXPERIENCE

Alkemy   **March 2022 - July 2022**
Data Analyst

As a Data Analyst, I delved into the intricacies of datasets, uncovering patterns and trends that informed critical business decisions. My passion for data-driven insights drove me to excel in this role.

Accomplishments:
- Exploratory Data Analysis (EDA): Conducted thorough EDA on large datasets, identifying key variables and correlations.
- Statistical Modeling: Developed predictive models using regression, classification, and clustering techniques.
- Business Impact: My insights directly influenced marketing strategies, leading to a 15% increase in customer engagement.

Colektia   **July 2022 - Present**
Data Engineer

Transitioning to a Data Engineer role, I embraced the challenge of architecting robust data pipelines. My focus shifted from analysis to infrastructure, where I built scalable solutions.

Accomplishments:
- ETL Processes: Designed and implemented ETL (Extract, Transform, Load) pipelines, ensuring data consistency and reliability.
- Cloud Technologies (AWS): Leveraged AWS services (such as S3, Glue, and Redshift) to create efficient data workflows.
- Python & Docker: Developed custom Python scripts for data transformation and orchestrated Docker containers for deployment.
- Database Management: Administered databases (SQL and NoSQL), optimizing query performance and data storage.

EDUCATION

I-TEC
Graduate Diploma in Computer Science

EDx online courses
Self-taught, CS50 Python development, AI, ML

Open Source Society University (GitHub OSSU)
Graduate Certificate in Computer Science

LANGUAGES

Spanish
- Native or Bilingual Proficiency

English
- Native or Bilingual Proficiency

Italian
- Limited Working Proficiency
